

Whitchurch Primary School

Languages Implementation

At Whitchurch Primary, KS2 children have weekly French lessons delivered by a qualified, specialist teacher.

Children in years 3-6 are taught in line with the National Curriculum Languages Programmes of Study. To deliver these, we are currently using resources such as La Jolie Ronde, Early Start French, IWB activities, sound files, video clips, online resources, a collection of story and song books and a set of bilingual dictionaries. French is taught progressively and consistently throughout KS2, building on previous knowledge and skills, with banks of vocabulary being organised around topics. Consolidation is vital and lessons aim to practise the same learning point in different skill areas. The pupils engage in a variety of enjoyable learning activities such as games, songs, role play, presentations and the use of realia.
